Discontinued Operations

Unless otherwise specified, the results presented in this Quarterly Report exclude discontinued operations. Discontinued operations relate to Platform's Agricultural Solutions business, which consists of Arysta and its subsidiaries. On July 20, 2018, the Company entered into the Arysta Sale Agreement to sell Arysta to UPL for \$4.20 billion in cash, subject to adjustments. Accordingly, Agricultural Solutions' assets, liabilities, operating results and cash flows for all periods presented have been classified as discontinued operations within the unaudited interim Condensed Consolidated Financial Statements. See Note 4, *Discontinued Operations*, to the unaudited interim Condensed Consolidated Financial Statements included in this Quarterly Report for information related to Agricultural Solutions.

Forward-Looking Statements

This Quarterly Report contains forward-looking statements that can be identified by words such as "expect," "anticipate," "project," "will," "should," "believe," "intend," "plan," "assume," "estimate," "predict," "believe," "seek," "continue," "outlook," "may," "might," "should," "can have," "likely," "potential," "target," "hope" or "hopeful" and variations of such words and similar expressions. Examples of forward-looking statements include, but are not limited to, statements, beliefs, projections and expectations regarding the Announced Arysta Sale, including the timing for completion of this transaction, including the targeted date; the ability of the parties to close this transaction, including obtaining the outstanding regulatory clearances and meeting other closing conditions for the transaction; the amount of any impairment charge required to be recorded and the effect on our results of operations; our intended name change; corporate reorganization; business strategy and potential shares repurchases; cost savings and efficiencies; as well as the impact of new accounting standards and accounting changes; the impact of the TCJA; our dividend policy; the effects of global economic conditions on our business and financial condition; our hedging activities; timing and outcome of environmental and legal matters; our goodwill and other intangible assets; price volatility and cost environment; our liquidity and capital resources; our funding sources; our capital expenditures; our debt; off-balance sheet arrangements and contractual obligations; general views about future operating results; our risk management program; our business and management strategies; future prospects; and other events or developments that we expect or anticipate will occur in the future.

Forward-looking statements are not guarantees of future performance, actions or events, and are subject to risks and uncertainties. If one or more of these risks or uncertainties materialize, or if management's underlying estimates, assumptions or expectations prove to be inaccurate or are unrealized, actual results may differ materially from those contemplated by these statements. A discussion of such risks and uncertainties include, without limitation, the risks set forth in Part I, Item 1A, "Risk Factors" of our 2017 Annual Report and Part II, Item 1A, "Risk Factors" of this Quarterly Report. Any forward-looking statement made by us in this Quarterly Report is based only on information currently available to us and speaks only as of the date on which it is made. We undertake no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. Please consult any further disclosures we make on related subjects in the Company's Form 10-K, 10-Q and 8-K reports filed with the SEC.

Non-GAAP Financial Measures

This Quarterly Report contains the following non-GAAP financial measures, such as operating results on a constant currency and organic basis. Non-GAAP financial measures should not be considered in isolation from, as a substitute for, or superior to, performance measures calculated in accordance with GAAP. For definitions of these non-GAAP financial measures and additional information on why we present them, their respective limitations and reconciliations to the most comparable applicable GAAP measures, see "*Non-GAAP Financial Measures*" in the Management's Discussion and Analysis of Financial Condition and Results of Operations section in Part I, Item 2, and Note 15, *Segment Information*, to the unaudited interim Condensed Consolidated Financial Statements, both included in this Quarterly Report.

1. BACKGROUND AND BASIS OF PRESENTATION

Background

Platform Specialty Products Corporation was incorporated in Delaware in January 2014 and its shares of common stock, par value \$0.01 per share, trade on the NYSE under the ticker symbol "PAH."

Platform is a global and diversified producer of high-technology specialty chemical products. Platform's business involves the blending of a number of key ingredients to produce proprietary formulations. The Company operates in a wide variety of niche markets across multiple industries, including automotive, electronics, graphics, and offshore oil and gas production and drilling. Platform delivers its products to customers through its sales and service workforce, regional distributors, and manufacturing representatives.

Platform has leading positions in niche segments of high-growth markets. The Company continually seeks opportunities to grow and enhance its strategic position by pursuing inorganic initiatives and focusing on specialty chemical businesses or assets within existing or complementary end-markets, particularly those meeting its "Asset-Lite, High-Touch" philosophy, which involves prioritizing resources to research and development, offering highly-technical sales and customer service, and managing conservatively its capital investments. Platform regularly reviews acquisition opportunities and may acquire businesses that meet its acquisition criteria when it deems it to be financially prudent.

Basis of Presentation

The accompanying unaudited interim Condensed Consolidated Financial Statements and related information in this Quarterly Report include the accounts of Platform and all of its controlled subsidiaries, and have been prepared on a basis that is substantially consistent with the accounting principles applied in the Company's 2017 Annual Report. In the opinion of management, these unaudited interim Condensed Consolidated Financial Statements reflect all adjustments that are normal, recurring and necessary for a fair presentation of the Company's financial position, results of operations and cash flows for interim periods, but are not necessarily indicative of the results of operations that may be expected for the year ending December 31, 2018. These unaudited interim Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and the related notes thereto included in the Company's 2017 Annual Report.

On July 20, 2018, the Company entered into the Arysta Sale Agreement to sell its Agricultural Solutions business to UPL for \$4.20 billion. Accordingly, Agricultural Solutions' assets, liabilities, operating results and cash flows for all periods presented have been classified as discontinued operations within the unaudited interim Condensed Consolidated Financial Statements. See Note 4, *Discontinued Operations*, for information related to Agricultural Solutions. Subject to the covenants, events of default and provisions discussed in Note 8, *Debt*, the Company's existing Senior Notes and term loans are not required to be immediately redeemed or repaid in connection with the Announced Arysta Sale. As such, the related liabilities and interest expense are not included in discontinued operations and therefore fully burden continuing operations.

The process of preparing the Company's unaudited interim Condensed Consolidated Financial Statements requires the use of estimates and judgments that affect the reported amount of assets, liabilities, net sales and expenses. These estimates and judgments are based on historical experience, future expectations and other factors as well as assumptions the Company believes to be reasonable under the circumstances. These estimates and judgments are reviewed on an ongoing basis and revised as necessary. Actual amounts may differ materially from these estimates.

Certain other prior year amounts have been reclassified to conform to the current year's presentation.

2. RECENT ACCOUNTING PRONOUNCEMENTS

Recently Adopted Accounting Pronouncements

Revenue from Contracts with Customers (Topic 606) - In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers," as a new FASB Accounting Standards Codification (ASC) Topic 606. The core principle of the guidance is that a company should recognize revenue to depict the transfer of promised goods or services in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. The new guidance requires expanded disclosure of qualitative and quantitative information about the Company's revenues from contracts with customers.

The new guidance did not have a material impact on the Company's financial statements since the timing and pattern of revenue recognition predominantly continued to be recognized as the Company's performance obligation to ship or deliver its products was completed and the transfer of control passes to the customer in accordance with the new standard. The Company adopted the new guidance effective January 1, 2018 using the modified retrospective method. See Note 3, *Significant Accounting Policies*, to the Company's unaudited interim Condensed Consolidated Financial Statements included in this Quarterly Report for more information.

Statement of Cash Flows (Topic 230) - In August 2016, the FASB issued ASU No. 2016-15, "Classification of Certain Cash Receipts and Cash Payments." This ASU was issued to reduce diversity in practice with respect to how certain cash receipts and cash payments are classified and presented in the statement of cash flows. The Company adopted the new guidance effective January 1, 2018 and retrospectively reclassified \$6.1 million of cash payments for debt prepayments and debt extinguishment costs from "Cash flows from operating activities" to "Cash flows from financing activities" in the Condensed Consolidated Statement of Cash Flows for the nine months ended September 30, 2017.

Recently Issued Accounting Pronouncements Not Yet Adopted

Leases (Topic 842) - In February 2016, the FASB issued ASU No. 2016-02, "Leases." This ASU requires lessees to recognize most leases in their balance sheets, but to record expenses on their income statements in a manner similar to current accounting. For lessors, the guidance modifies the classification criteria and the accounting for sales-type and direct financing leases. The two permitted adoption methods under this ASU are the modified retrospective approach, which requires application of the guidance in all comparative periods presented, and the cumulative-effect-adjustment approach, which allows for application at the adoption date without restating prior periods. The Company is in the process of implementing a new software system and corresponding controls for administering its leases and facilitating compliance with the ASU, including the required disclosures, upon adoption. The Company is currently evaluating the impact of this ASU to its financial statements and related disclosures, and expects to utilize the cumulative-effect-adjustment approach.

Derivatives and Hedging (Topic 815) - In August 2017, the FASB issued ASU No. 2017-12, "Targeted Improvements to Accounting for Hedging Activities." This ASU improves the financial reporting of hedge relationships by updating hedging designation and measurement guidance. The update also simplifies the application of existing hedge accounting guidance related to assessing hedge effectiveness. The guidance is effective prospectively as of January 1, 2019, and is applied to contracts in existence at the date of adoption, with its effects required to be reflected as of January 1 of the year of adoption. The Company is evaluating the impact of this ASU.

3. SIGNIFICANT ACCOUNTING POLICIES

In connection with the Company's adoption of ASU No. 2014-09, "Revenue from Contracts with Customers," and ASU No. 2016-01, "Recognition and Measurement of Financial Assets and Financial Liabilities," the Company has updated its significant accounting policies for revenue recognition and equity securities as noted below.

Revenue Recognition – The Company recognizes revenue either upon shipment or delivery of product depending on when it is reasonably assured that both title and the risks and rewards of ownership have been passed on to the customer, and the Company's performance obligations have been fulfilled and collectability is reasonably assured. Estimates for sales rebates, incentives and discounts, as well as sales returns and allowances, are accounted for as reductions of revenue when the earnings process is complete.

PLATFORM SPECIALTY PRODUCTS CORPORATION AND SUBSIDIARIES
Notes to the Condensed Consolidated Financial Statements
(Unaudited)

Sales rebates, incentives and discounts are typically earned by customers based on annual sales volume targets. The Company records an estimate for these accruals based on contract terms and its historical experience with similar programs. An estimate for future expected sales returns is recorded based on historical experience with product returns; however, changes to these estimates may be required if the historical data used in the calculation differ from actual experience. Differences between estimated expense and actual costs are typically immaterial and are recognized in earnings in the period such differences are determined. Variable consideration for volume discounts, rebates and returns are recorded as contract liabilities and settled with the customer in accordance with the terms of the applicable contract, typically when annual program requirements are achieved by the customer.

Most performance obligations relate to contracts with a duration of less than one year, in which the Company has the right to invoice the customer at the time the performance obligation is satisfied for the amount of revenue recognized at that time. Accordingly, the Company has elected the practical expedient available under ASC Topic 606, *Revenue from Contracts with Customers*, not to disclose remaining performance obligations under its contracts. The Company has also elected the practical expedient to expense incremental costs for obtaining contracts with terms of less than one year.

See Note 15, *Segment Information*, to the Company's unaudited interim Condensed Consolidated Financial Statements included in this Quarterly Report for a disaggregation of net sales.

Equity Securities – Equity securities that have readily determinable fair values are classified as available for sale and are carried at fair value. Unrealized holding gains and losses are recorded in the Condensed Consolidated Statements of Operations as "Other (expense) income." Equity securities which do not have readily determinable fair values are recorded at cost and are evaluated whenever events or changes in circumstances indicate that the carrying values of such investments may be impaired. Equity securities are included in the Condensed Consolidated Balance Sheets as "Other assets."

4. DISCONTINUED OPERATIONS

On July 20, 2018, the Company entered into the Arysta Sale Agreement to sell its Agricultural Solutions business, which consists of Arysta and its subsidiaries, to UPL for \$4.20 billion in cash, subject to adjustments. The Announced Arysta Sale is currently targeted to close on December 31, 2018, subject to customary closing conditions and outstanding regulatory clearances. The Company expects the Announced Arysta Sale to maximize long-term value for its stockholders by enabling investors to focus on its specific and differentiated high-quality businesses that serve the specialty chemicals industry.

The Agricultural Solutions business was previously its own reportable segment and has been presented for all periods as discontinued operations in this Quarterly Report as the sale represents a significant strategic shift and was determined to have a major effect on the Company's operations and financial results. Previously allocated corporate costs to the Agricultural Solutions segment have been reallocated to the Performance Solutions segment for all periods presented as these costs are not clearly identifiable as costs of the Agricultural Solutions segment.

In the third quarter of 2018, the Company recorded an estimated asset impairment loss of \$376 million as the carrying value of its discontinued operations exceeded the estimated fair value less costs to sell. This estimated impairment loss primarily reflected the recognition of foreign currency translation adjustments that have been recorded in "Accumulated Other Comprehensive Loss" within Stockholders' Equity. The estimated impairment loss reflects Platform's best estimate of the amount of the charge at this time. The actual loss on sale will be dependent on a number of factors, including foreign exchange rates on the closing date of the Announced Arysta Sale and other closing adjustments.

Weighted average effective interest rate of 4.7% and 4.5% at September 30, 2018 and December 31, 2017, respectively, including the effects of interest rate swaps. See Note 9, Financial Instruments, to the Company's unaudited interim Condensed Consolidated Financial Statements for further information regarding the Company's interest rate swaps.

⁽³⁾ The maturity date will extend to June 7, 2023, provided that the Company is able to prepay, redeem or otherwise retire and/or refinance in full its \$1.10 billion 6.50% USD Senior Notes due 2022, as permitted under the Amended and Restated Credit Agreement, on or prior to November 2, 2021.

Amended and Restated Credit Agreement

The Company is party to the Amended and Restated Credit Agreement, which governs the First Lien Credit Facility and the Revolving Credit Facility (in U.S. dollar or multicurrency). A portion of the Revolving Credit Facility not in excess of \$30.0 million is available for the issuance of letters of credit. At September 30, 2018, the maximum borrowing capacity under the Amended and Restated Credit Agreement totaled \$485 million, which consisted of (i) an aggregate principal amount of up to \$240 million under the Revolving Credit Facility to be denominated in U.S. dollars, and (ii) an aggregate principal amount of up to \$245 million under the Revolving Credit Facility to be denominated in multicurrency. Loans under the Revolving Credit Facility bear interest at a rate per annum equal to 3.00% plus an adjusted eurocurrency rate, or 2.00% plus an adjusted base rate, each as calculated as set forth in the Amended and Restated Credit Agreement.

On March 21, 2018, the Company entered into Amendment No. 9 to the Second Amended and Restated Credit Agreement, which extended the maturity date of a portion of the amount then outstanding under the Revolving Credit Facility to June 7, 2020, subject to certain conditions. The Company's total borrowing capacity amounts to \$485 million through June 7, 2019 and \$410 million from June 8, 2019 to June 7, 2020.

The Amended and Restated Credit Agreement also provides the Company with the ability to incur certain amounts of additional incremental term loans, subject to pro-forma compliance with financial maintenance covenants and certain other requirements.

The Company is required to pay a quarterly commitment fee of 0.50% on the unused balance of the Revolving Credit Facility.

PLATFORM SPECIALTY PRODUCTS CORPORATION AND SUBSIDIARIES
Notes to the Condensed Consolidated Financial Statements
(Unaudited)

The obligations incurred under the Amended and Restated Credit Agreement are guaranteed by substantially all of the Company's domestic subsidiaries and, with respect to the obligations denominated in euros, by the Company and certain of its international subsidiaries. Substantially all of the Company's domestic subsidiaries, and certain of its international subsidiaries, have also granted security interests in substantially all of their assets in connection with such guarantees, including, but not limited to, their equity interests and personal property.

Covenants, Events of Default and Provisions

The Amended and Restated Credit Agreement contains customary representations and warranties and affirmative and negative covenants, including limitations on additional indebtedness, dividends and other distributions, entry into new lines of business, use of loan proceeds, capital expenditures, restricted payments, restrictions on liens, transactions with affiliates, amendments to organizational documents, accounting changes, sale and leaseback transactions, and dispositions. In particular, the Revolving Credit Facility imposes a financial covenant to maintain a first lien net leverage ratio of no greater than 6.25 to 1.0; provided that in the event that the Company or certain of its subsidiaries (i) incur incremental facilities in an aggregate amount in excess of \$250 million or (ii) make restricted payments in an aggregate amount in excess of \$50 million, the first lien net leverage ratio will be reduced from the ratio stated above to 4.0 to 1.0, in each case subject to a right to cure. A violation of this financial covenant can become an event of default under the Credit Facilities and result in the acceleration of all of the Company's indebtedness. Borrowings under the Amended and Restated Credit Agreement are subject to mandatory prepayment from the proceeds of certain dispositions of assets and from certain insurance and condemnation proceeds, excess cash flow and debt incurrences, in each case, subject to customary carve-outs and exceptions, including the option for the Company to reinvest such proceeds in its businesses within 360 days of receipt, in all cases subject to the satisfaction of financial covenants. Borrowings under the Amended and Restated Credit Agreement are also subject to mandatory prepayment provisions in the case of excess cash flow, calculated as set forth in the Amended and Restated Credit Agreement, of 75% with step-downs to 50%, 25% and 0% based on the applicable first lien net leverage ratio on the prepayment date.

The Amended and Restated Credit Agreement contains customary events of default that include, among others, non-payment of principal, interest or fees, violation of certain covenants, inaccuracy of representations and warranties, failure to make payment on, or defaults with respect to, certain other material indebtedness, bankruptcy and insolvency events, material judgments, and change of control provisions. Upon the occurrence of an event of default, and after the expiration of any applicable grace period, payment of any outstanding loans under the Amended and Restated Credit Agreement may be accelerated and the Company's lenders could foreclose on their security interests in the Company's assets, which may have a material adverse effect on the consolidated financial condition, results of operation or cash flows of the Company.

In addition, the Amended and Restated Credit Agreement contains a yield protection provision wherein the yield on any current indebtedness issued under the Amended and Restated Credit Agreement would be increased to within 50 basis points of the yield on any additional incremental term loan(s), in the event such incremental term loan(s) provided an initial yield, including original issuance discount (calculated pursuant to the yield calculation provisions in the Amended and Restated Credit Agreement), in excess of 50 basis points of the yield on any existing term loan indebtedness.

At September 30, 2018, the Company was in compliance with the debt covenants contained in the Credit Facilities and, in accordance with applicable debt covenants, had full availability of its unused borrowing capacity of \$468 million, net of letters of credit, under the Revolving Credit Facility.

Senior Notes

The Senior Notes are governed by indentures which provide, among other things, for customary affirmative and negative covenants, events of default, and other customary provisions. The Company also has the option to redeem the Senior Notes prior to their maturity, subject to, in certain cases, the payment of an applicable make-whole premium. The Senior Notes are unsecured and fully and unconditionally guaranteed on a senior unsecured basis by generally all of the Company's domestic subsidiaries that are guarantors under the Amended and Restated Credit Agreement.

In addition, the 5.875% USD Notes Indenture provides that, in connection with the satisfaction of certain financial covenants and other conditions, all of the then direct and indirect subsidiaries constituting Platform's Agricultural Solutions business may be designated as unrestricted subsidiaries and, as applicable, released from their guarantees of the 5.875% USD Notes due 2025. Subsequent to such "Arysta Unrestricted Designation," a sale of Platform's Agricultural Solutions business through the sale of

capital stock or assets may be considered a "Qualified Arysta Equity Offering." In general, Platform may have the right to use an aggregate amount of net cash proceeds from a Qualified Arysta Equity Offering, not to exceed 50% of such net cash proceeds, for permitted restricted payments (including dividends and repurchases of capital stock) to the extent that an equal amount of net cash proceeds is used to permanently reduce debt in accordance with the 5.875% USD Notes Indenture. In addition, after or contemporaneously with the Arysta Unrestricted Designation, any dividend or sale of common shares of unrestricted subsidiaries constituting all or part of Platform's Agricultural Solutions business, such as contemplated with respect to the Announced Arysta Sale, shall not be considered an Asset Sale (as defined in the 5.875% USD Notes Indenture).

Lines of Credit and Other Debt Facilities

The Company has access to various revolving lines of credit, short-term debt facilities, and overdraft facilities worldwide which are used to fund short-term cash needs. At September 30, 2018 and December 31, 2017, there were no principal amounts outstanding under such facilities. The Company also had letters of credit outstanding of \$17.5 million and \$19.3 million at September 30, 2018 and December 31, 2017, respectively, of which \$16.8 million and \$18.6 million at September 30, 2018 and December 31, 2017, respectively, reduced the borrowings available under the various facilities. At September 30, 2018 and December 31, 2017, the availability under these facilities totaled approximately \$497 million and \$509 million, respectively, net of outstanding letters of credit.

Precious Metals Contracts

Certain subsidiaries of the Company periodically enter into arrangements with financial institutions for consignment and/or purchase of precious metals. The present and future indebtedness and liability relating to such arrangements are guaranteed by the Company. The Company's maximum guarantee liability under these arrangements is limited to an aggregate of \$18.0 million.

9. FINANCIAL INSTRUMENTS

Derivatives and Hedging

In the normal course of business, the Company is exposed to risks relating to changes in foreign currency exchange rates, interest rates and commodity prices. Derivative financial instruments, such as foreign currency exchange forward contracts, interest rate swaps and commodities futures contracts are used to manage risks associated with changes in market conditions. All derivatives are recognized in the Condensed Consolidated Balance Sheets at fair value. The counterparties to the Company's derivative agreements are primarily major international financial institutions. The Company continually monitors its positions and the credit ratings of its counterparties and does not anticipate nonperformance by any counterparties.

Foreign Currency

The Company conducts a significant portion of its business in currencies other than the U.S. dollar and a portion of its business in currencies other than the functional currencies of its subsidiaries. As a result, the Company's operating results are impacted by foreign currency exchange rate volatility.

At September 30, 2018, the Company held foreign currency forward contracts to purchase and sell various currencies in order to mitigate such foreign currency exposure, primarily with the U.S. dollar and euro. The Company has not designated any foreign currency exchange forward contracts as eligible for hedge accounting and, as a result, changes in the fair value of foreign currency forward contracts are recorded in the Condensed Consolidated Statements of Operations as "Other (expense) income, net." The total notional value of foreign currency exchange forward contracts held at September 30, 2018 and December 31, 2017 was approximately \$125 million and \$201 million, respectively, with settlement dates generally within one year.

Commodities

As part of its risk management policy, the Company enters into commodities futures contracts for the purpose of mitigating its exposure to fluctuations in prices of certain metals used in the production of its finished goods. The Company held futures contracts to purchase and sell various metals, primarily tin and silver, with a notional value of \$30.5 million and \$31.8 million at September 30, 2018 and December 31, 2017, respectively. All contracts outstanding at September 30, 2018 had delivery dates within one year. The Company has not designated these derivatives as hedging instruments and, accordingly, records changes in their fair values in the Condensed Consolidated Statements of Operations as "Other (expense) income, net."

Unrealized gains and losses on derivative contracts are accounted for as "Operating activities" in the Condensed Consolidated Statements of Cash Flows.

Interest Rates

The Company entered into interest rate swaps to effectively fix the floating base rate portion of its interest payments on approximately \$1.13 billion of U.S. dollar denominated debt and €277 million of euro denominated debt at 1.96% and 1.20%, respectively, through June 2020.

Changes in the fair value of a derivative instrument that is designated as, and meets all the required criteria of, a cash flow hedge are recorded in "Other comprehensive (loss) income" and reclassified from "Accumulated other comprehensive loss" into earnings as the underlying hedged item affects earnings. Amounts reclassified into earnings related to interest rate swaps are included in the Condensed Consolidated Statements of Operations as "Interest expense, net."

For the three and nine months ended September 30, 2018, the Company's interest rate swaps were deemed highly effective utilizing the dollar-offset method of assessing hedge effectiveness. The ineffectiveness resulting from the repriced portion of the Company's euro-denominated debt in 2017 totaled \$0.2 million and \$0.8 million for the three and nine months ended September 30, 2018, respectively, and was recorded in the Condensed Consolidated Statements of Operations as "Other (expense) income, net." The Company expects to reclassify \$6.7 million of income from "Accumulated other comprehensive loss" to "Interest expense, net" in the Condensed Consolidated Statements of Operations within the next twelve months.

Fair Value Measurements

The following table presents the Company's financial assets and liabilities that are measured at fair value on a recurring basis:

<i>(amounts in millions)</i>	Balance sheet location	Classification	September 30,		December 31,	
Asset Category			2018		2017	
Foreign exchange and metals contracts not designated as hedging instruments	Other current assets	Level 2	\$	0.3	\$	2.0
Interest rate swaps designated as cash flow hedging instruments	Other current assets	Level 2		7.3		—
Interest rate swaps designated as cash flow hedging instruments	Other assets	Level 2		7.9		3.4
Available for sale equity securities	Other assets	Level 1		0.3		2.4
Available for sale equity securities	Other assets	Level 2		—		0.6
Total			\$	15.8	\$	8.4
Liability Category						
Foreign exchange and metals contracts not designated as hedging instruments	Accrued expenses and other liabilities	Level 2	\$	2.5	\$	1.4
Interest rate swaps designated as cash flow hedging instruments	Accrued expenses and other liabilities	Level 2		0.6		2.8
Interest rate swaps designated as cash flow hedging instruments	Other liabilities	Level 2		0.4		0.8
Long-term contingent consideration	Contingent consideration	Level 3		81.7		79.2
Total			\$	85.2	\$	84.2

The following methods and assumptions were used to estimate the fair value of each class of the Company's financial assets and liabilities:

Derivatives - Derivative assets and liabilities include foreign currency, metals and interest rate derivatives. The values are determined using pricing models based upon observable market inputs, such as market spot and futures prices on over-the-counter derivative instruments, market interest rates, and consideration of counterparty credit risk.

Available for sale equity securities - Available for sale equity securities classified as Level 1 assets and are measured using quoted market prices at the reporting date multiplied by the quantity held. Available for sales equity securities classified as Level 2 assets are measured using quoted prices for similar instruments in active markets.

Long-term contingent consideration - The long-term contingent consideration represents a potential liability of up to \$100 million tied to the achievement of certain common stock trading price performance metrics and Adjusted EBITDA targets over a seven-year period ending December 2020 in connection with the MacDermid Acquisition.

- **Common Stock** - The common stock performance target, which represents an expected future payment value of \$40.0 million, has been satisfied and is recorded at its present value utilizing a discount rate of approximately 2.84%. An increase or decrease in the discount rate of 1% changes the fair value measure of the metric by approximately \$0.9 million.
- **Adjusted EBITDA** - The estimated fair value of the Adjusted EBITDA performance metric is derived using the income approach with unobservable inputs, based on future forecasts and present value assumptions which include a discount rate of approximately 10.00% and expected future payment value of \$60.0 million calculated using a probability weighted Adjusted EBITDA assessment with higher probability associated with the Company achieving the maximum Adjusted EBITDA targets. An increase or a decrease in the discount rate of 1%, within a range of probability between 80% and 100%, changes the estimated fair value measure of the metric by approximately \$1.3 million.

Changes in the estimated fair value of the long-term contingent consideration are recorded in the Condensed Consolidated Statements of Operations as "Selling, technical, general and administrative" expenses. During the three and nine months ended September 30, 2018, the only change to the long-term contingent consideration liability was to adjust the instrument to its estimated fair value.

PLATFORM SPECIALTY PRODUCTS CORPORATION AND SUBSIDIARIES
Notes to the Condensed Consolidated Financial Statements
(Unaudited)

There were no significant transfers between the fair value hierarchy levels for the three and nine months ended September 30, 2018.

The carrying value and estimated fair value of the Company's long-term debt totaled \$5.39 billion and \$5.50 billion, respectively, at September 30, 2018, and \$5.44 billion and \$5.58 billion, respectively, at December 31, 2017. The carrying values noted above include unamortized premiums, discounts and debt issuance costs. The estimated fair value of long-term debt is measured using quoted market prices at the reporting date multiplied by the gross carrying amount of the related debt, which excludes unamortized premiums, discounts and debt issuance costs. Such instruments are valued using Level 2 inputs.

10. STOCKHOLDERS' EQUITY

Preferred Stock

The Company is authorized to issue 5,000,000 shares of preferred stock. The Board has designated 2,000,000 of those shares as "Series A Preferred Stock." At September 30, 2018 and December 31, 2017, a total of 2,000,000 shares of Series A Preferred Stock were issued and outstanding. Shares of preferred stock have no voting rights, except in respect of any amendment to the Company's Certificate of Incorporation, as amended, that would alter or change their rights or privileges. Each share of Series A Preferred Stock is convertible into one share of the Company's common stock at the option of the holders until December 31, 2020. All outstanding shares of Series A Preferred Stock will be automatically converted into shares of common stock on a one-for-one basis (i) in the event of a change of control of the Company following an acquisition or (ii) on December 31, 2020 (which may be extended by the Board for three additional years).

As holders of the Series A Preferred Stock, the Founder Entities are entitled to receive dividends in the form of shares of the Company's common stock. The dividend amount is calculated based on the appreciated stock price compared to the highest dividend price previously used in calculating the Series A Preferred Stock dividends, which is currently \$22.85 per share.

Non-Controlling Interest

In connection with the MacDermid Acquisition, approximately \$97.5 million was raised in new equity consisting of 8,774,527 shares of PDH Common Stock. The PDH Common Stock is recorded in the Condensed Consolidated Balance Sheets as "Non-controlling interests" and will continue to be classified as such until it is fully converted into shares of the Company's common stock. Of the shares initially issued, 4,688,854 have been converted and a like number of shares of the Company's common stock have been issued through September 30, 2018. Non-controlling interest at September 30, 2018 and 2017, totaled 3.27% and 4.02%, respectively.

For the three months ended September 30, 2018 and 2017 approximately \$2.0 million and \$0.7 million, respectively, of net income has been allocated to the Retaining Holders, as included in the Condensed Consolidated Statements of Operations. For each of the nine month periods ended September 30, 2018 and 2017, approximately \$2.6 million of net income has been allocated to the Retaining Holders.

Conditional Board Approval of Share Repurchases of up to \$750 million

The Board has authorized up to \$750 million in potential share repurchases, conditioned upon the closing of the Announced Arysta Sale. The timing, method and ultimate amount of any share repurchases cannot be determined at this time.

Shares issuable upon vesting of RSUs	2.1	0.9	1.5	0.8
Total	15.2	15.9	15.5	15.9

12. CONTINGENCIES, ENVIRONMENTAL AND LEGAL MATTERS

Asset Retirement Obligations (AROs)

The Company has recognized AROs for properties where it can make a reasonable estimate of the future expenditures necessary to satisfy the related obligations. When calculating its ARO liability, the Company considers identified legally-enforceable obligations, estimated settlement dates and appropriate discount and inflation rates.

The Company's ARO liabilities included in the Condensed Consolidated Balance Sheets as "Accrued expenses and other current liabilities" and "Other liabilities," totaled \$7.0 million and \$6.9 million at September 30, 2018 and December 31, 2017, respectively.

PLATFORM SPECIALTY PRODUCTS CORPORATION AND SUBSIDIARIES

Environmental

The Company is involved in various claims relating to environmental matters at a number of current and former plant sites and waste management sites. The Company engages or participates in remedial and other environmental compliance activities at certain of these sites. At other sites, it has been named as a potential responsible party pursuant to the federal Superfund Act and/or state Superfund laws comparable to the federal law for site remediation. The Company analyzes each individual site, considering the number of parties involved, the level of its potential liability or contribution relating to the other parties, the nature and magnitude of the hazardous wastes involved, the method and extent of remediation, the potential insurance coverage, the estimated legal and consulting expense with respect to each site, and the time period over which any costs would likely be incurred. Based on this analysis, the Company estimates the clean-up costs and related claims for each site. The estimates are based in part on discussions with other potential responsible parties, governmental agencies, and engineering firms.

The Company accrues for environmental matters when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated based on current laws and existing technologies. The accruals are adjusted periodically as assessment and remediation efforts progress or as additional technical or legal information becomes available. While uncertainty exists with respect to the amount and timing of its ultimate environmental liabilities, the Company does not currently anticipate any material losses in excess of the amount recorded. However, it is possible that new information about the sites referred to above, such as results of investigations, could make it necessary for the Company to reassess its potential exposure related to these environmental matters.

The Company's environmental liabilities, which are included in the Condensed Consolidated Balance Sheets as "Accrued expenses and other current liabilities" and "Other liabilities," totaled \$18.6 million and \$27.9 million at September 30, 2018 and December 31, 2017, respectively, primarily driven by environmental remediation, clean-up costs, and monitoring of sites that were either closed or disposed of in prior years. As of the date hereof, management does not believe it is possible to develop an estimate of the range of reasonably possible environmental loss in excess of the Company's recorded liabilities, and is unable to ascertain the ultimate aggregate amount of monetary liability or financial impact with respect to these matters.

Legal Proceedings

From time to time, the Company is involved in various legal proceedings, investigations and/or claims in the normal course of its business. Although it cannot predict with certainty the ultimate resolution of these matters which involve judgments that are inherently subjective, the Company believes that their resolutions, to the extent not covered by insurance, will not, individually or in the aggregate, have a material adverse effect on its consolidated financial position, results of operations or cash flows.

In June 2017, MacDermid Printing and DuPont reached an agreement to settle and dismiss their respective lawsuits against each other, as well as MacDermid Printing's lawsuit against Cortron Corporation, involving MacDermid Printing's flexographic printing technology and related business. In connection with the settlement, in July 2017, DuPont made a payment of \$20.0 million to MacDermid Printing, and the Company recorded a net settlement gain in the second quarter of 2017 totaling \$10.6 million in the Condensed Consolidated Statement of Operations as "Other (expense) income, net." The settlement resolved all outstanding litigation between MacDermid Printing, DuPont and Cortron Corporation.

13. INCOME TAXES

The Company's quarterly tax provision is measured using an estimated annual effective tax rate, adjusted for discrete items, within the periods presented. The comparison of the Company's effective tax rate between periods is significantly impacted by the level and mix of earnings and losses by tax jurisdiction, foreign income tax rate differentials and discrete items.

PLATFORM SPECIALTY PRODUCTS CORPORATION AND SUBSIDIARIES
Notes to the Condensed Consolidated Financial Statements
(Unaudited)

Tax Reform

On December 22, 2017, the TCJA was enacted into law in the United States. The legislation contains several key tax provisions including the reduction of the corporate income tax rate to 21%, effective January 1, 2018, a one-time transition tax on foreign earnings which have not previously been subject to tax in the United States, as well as a variety of other changes, including limitation of the tax deductibility of interest expense, limitations on the deduction of net operating losses, new taxes on certain foreign-sourced earnings, and modification or repeal of certain business deductions and credits.

The SEC staff issued Staff Accounting Bulletin (SAB) 118, which allows companies to record provisional amounts related to the impact of the TCJA during a one-year measurement period. At December 31, 2017, the Company had not completed its accounting for the tax effects of the enactment of the TCJA; however, the Company estimated what it anticipates the effects of the TCJA will be on its existing deferred tax balances, unrecognized tax benefits and the one-time transition tax, and recorded a provisional estimate for these tax effects. The Company has not recorded any measurement period adjustments to the provisional estimates recorded at December 31, 2017 and is still evaluating its reinvestment assertion for foreign earnings due to the changes associated with the TCJA.

The TCJA subjects a U.S. shareholder to tax on global intangible low-taxed income (GILTI) earned by certain foreign subsidiaries for which an entity can make an accounting policy election to either i) recognize deferred taxes for temporary basis differences expected to reverse as GILTI in future years or ii) provide for the tax expense related to GILTI in the year the tax is incurred. Given the complexity of the GILTI provisions, the Company is still evaluating the effects of the GILTI provisions and has not yet determined its accounting policy. The Company has included GILTI related to current-year operations only in its estimated annual effective tax rate.

The Company will continue to assess the impact of the TCJA on its business and its Consolidated Financial Statements and provide updates in subsequent filings.

14. RELATED PARTY TRANSACTIONS

The Company is party to an Advisory Services Agreement with Mariposa Capital, LLC, an affiliate of one of its founder directors, whereby Mariposa Capital, LLC is entitled to receive an annual fee equal to \$2.0 million, which is accrued quarterly and payable in quarterly installments, and reimbursement for expenses. This agreement automatically renews for successive one-year terms unless either party notifies the other party in writing of its intention not to renew no later than 90 days prior to the expiration of the applicable term.

15. SEGMENT INFORMATION

The Company's operations are organized into two reportable segments: Performance Solutions and Agricultural Solutions. These segments represent businesses for which separate financial information is utilized by the chief operating decision maker, or CODM, for purpose of allocating resources and evaluating performance. Each of the reportable segments has its own president, who reports to the CODM.

As discussed in Note 4, *Discontinued Operations*, in the three months ended September 30, 2018, the Agricultural Solutions segment met the requirements to be classified as discontinued operations. As a result, the Agricultural Solutions' operations have been excluded from the segment reporting below.

Segment Performance

The Company allocates resources and evaluates the performance of its operating segment based primarily on net sales and Adjusted EBITDA. Adjusted EBITDA is defined as earnings from continuing operations attributable to common stockholders before interest, taxes, depreciation and amortization, as further adjusted for additional items included in earnings that are not considered to be representative or indicative of the segment's ongoing business. Adjusted EBITDA also includes corporate costs, such as compensation expense and professional fees.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Management's Discussion and Analysis of Financial Condition and Results of Operations section should be read in conjunction with the unaudited interim Condensed Consolidated Financial Statements and related notes included in this Quarterly Report, and the Consolidated Financial Statements, related notes and Management's Discussion and Analysis of Financial Condition and Results of Operations section and other disclosures contained in our 2017 Annual Report. This discussion contains forward-looking statements that involve risks and uncertainties. Actual results may differ materially from those discussed in these forward-looking statements. Factors that might cause a difference include, but are not limited to, those discussed under "Forward-Looking Statements" and in Part II, Item 1A, "Risk Factors" of this Quarterly Report as well as in Part I, Item 1A, "Risk Factors" of our 2017 Annual Report.

Overview

Our Business

Platform, incorporated in Delaware in January 2014, is a global and diversified producer of high technology specialty chemical products. Our business involves the blending of a number of key ingredients to produce proprietary formulations. Utilizing our strong industry insight, process know-how, and creative research and development, we partner with our customers to provide innovative and differentiated solutions that are integral to their finished products. We operate in a wide variety of attractive niche markets across multiple industries, including automotive, electronics, graphics, and offshore oil and gas production and drilling, and we believe that the majority of our operations hold strong positions in the product markets they serve. Our product innovations and product extensions are expected to continue to drive sales growth in both new and existing markets, while also expanding margins by continuing to offer high customer value propositions.

We have leading market positions in niche segments of high-growth markets and continually seek opportunities to grow and enhance our strategic position by pursuing inorganic initiatives and focusing on specialty chemical businesses or assets within existing or complementary end-markets, particularly those meeting our "Asset-Lite, High-Touch" philosophy, which involves prioritizing resources to research and development, offering highly-technical sales and customer service, while managing conservatively our investments in fixed assets and capital expenditures. We regularly review acquisition opportunities and may acquire businesses that meet our acquisition criteria when we deem it to be financially prudent.

We generate revenue through the formulation and sale of our dynamic chemistries. In addition, we provide highly-technical service to our customers through our extensive global network of specially-trained service personnel. Our personnel follow up closely with our customers to ensure that the functional performance of our intricate chemical composition is maintained as intended and that these products are applied safely and effectively. Our specialty chemicals and processes are seen as integral to our customer's product performance. We leverage these close customer relationships to execute our growth strategy and identify opportunities for new products. These new products are developed and created by drawing upon our intellectual property portfolio and technical expertise. We believe that our customers place significant value on our brands, which we capitalize on through innovation, product leadership and customer service.

Our Operations

Our operations are organized into two reportable segments: Performance Solutions and Agricultural Solutions. As discussed in Note 4, *Discontinued Operations*, to the unaudited interim Condensed Consolidated Financial Statements included in this Quarterly Report, the Agricultural Solutions segment met the requirements to be classified as discontinued operations. As a result, the Agricultural Solutions' operations have been excluded from the segment description below.

Performance Solutions - The Performance Solutions segment formulates and markets dynamic chemistry solutions that are used in automotive production, electronics, commercial packaging and printing, and oil and gas production and drilling. Its products include surface and coating materials, water-based hydraulic control fluids, and photopolymers. In conjunction with the sale of its products, the segment provides extensive technical service and support when necessary to ensure superior performance of their application. While the segment's dynamic chemistries typically represent only a small portion of its customers' costs, we believe that they are critical to its customers' manufacturing processes and overall product performance. Further, operational risks and

switching costs make it difficult for its customers to change suppliers and allow it to retain customers and maintain its market positions.

The segment focuses on attractive niche markets, which we believe will grow faster than the diverse end-markets we serve. It provides specialty chemical solutions through the following five businesses:

<i>Assembly Solutions:</i>	The business develops, manufactures and sells innovative interconnected materials, primarily in the electronics market, used to assemble printed circuit boards and advanced semiconductor packaging.
<i>Electronics Solutions:</i>	The business designs and formulates a complete line of proprietary “wet” dynamic chemistries used by customers to process the surface of printed circuit boards and other electronic components they manufacture.
<i>Industrial Solutions</i>	The business' dynamic chemistries are used for finishing, cleaning and providing surface coatings for a broad range of metal and non-metal surfaces which improve the performance or look of a component of an industrial part or process.
<i>Graphics Solutions:</i>	The business produces photopolymers, through an extensive line of flexographic plates, which are used to produce printing plates for transferring images onto commercial packaging, including packaging for consumer food products, pet food bags, corrugated boxes, labels and beverage containers. In addition, the segment produces photopolymer printing plates for the flexographic and letterpress newspaper and publications markets.
<i>Offshore Solutions:</i>	The business produces water-based hydraulic control fluids for major oil and gas companies and drilling contractors for offshore deep water production and drilling applications.

Announced Arysta Sale

Discontinued Operations Resulting from the Announced Arysta Sale

On July 20, 2018, we entered into the Arysta Sale Agreement to sell our Agricultural Solutions business, which consists of Arysta and its subsidiaries, to UPL for \$4.20 billion in cash, subject to adjustments. As a result of entering into the Arysta Sale Agreement, the Agricultural Solutions business is being reported as discontinued operations in this Quarterly Report.

We recorded an estimated asset impairment loss of \$376 million in the third quarter of 2018 as the carrying value of the Agricultural Solutions' business exceeded its estimated fair value, less costs to sell, primarily due to the recognition of foreign currency translation adjustments previously recorded in Accumulated Other Comprehensive Loss within Stockholders' Equity. The estimated impairment loss reflects our best estimate of the amount of the charge at this time. The actual loss on the Announced Arysta Sale will be dependent on a number of factors, including foreign exchange rates on the closing date of the sale and other closing adjustments.

The Announced Arysta Sale is currently targeted to close on December 31, 2018, although the timing will be subject to customary closing conditions including receipt of outstanding regulatory clearances. Several key antitrust approvals have already been received, including in Brazil, Colombia, South Africa and the United States (Hart-Scott-Rodino Act, or HSR).

Conditional Board Approval of Share Repurchases of up to \$750 million

The proceeds of the Announced Arysta Sale are expected to be used primarily to pay down a portion of our existing debt. We also may repurchase shares of our common stock in accordance with the previously-announced share repurchases program of up to \$750 million approved by the Board, conditioned upon the closing of the Announced Arysta Sale. The timing, method and ultimate amount of any share repurchases cannot be determined at this time.

Intended Company Name Change

In connection with the Announced Arysta Sale, we announced our plan to change the name of the Company to Element Solutions Inc, effective at closing. We expect our shares of common stock to be traded on the NYSE under the ticker symbol “NYSE:ESI.”

Recent Accounting Pronouncements

A summary of recent accounting pronouncements is included in Note 2, *Recent Accounting Pronouncements*, to our unaudited interim Condensed Consolidated Financial Statements included in this Quarterly Report.

Non-GAAP Financial Measures

To supplement our financial results presented in accordance with GAAP in this Management's Discussion and Analysis of Financial Condition and Results of Operations section, we present certain non-GAAP financial measures, such as operating results on a constant currency and organic basis. Management internally reviews each of these non-GAAP measures to evaluate performance on a comparative period-to-period basis in terms of absolute performance, trends and expected future performance with respect to our business. We believe these non-GAAP financial measures, which are each further described below, provide investors with an additional perspective on trends and underlying operating results on a period-to-period comparable basis. We also believe that investors find this information helpful in understanding the ongoing performance of our operations separate from items that may have a disproportionate positive or negative impact on our financial results in any particular period.

These non-GAAP financial measures, however, have limitations as analytical tools, and should not be considered in isolation from, or a substitute for, or superior to, the related financial information that we report in accordance with GAAP. The principal limitation of these non-GAAP financial measures is that they exclude significant expenses and income that are required by GAAP to be recorded in the Company's financial statements, and may not be comparable to similarly titled measures of other companies due to potential differences in calculation methods. In addition, these measures are subject to inherent limitations as they reflect the exercise of judgment by management about which items are excluded or included in determining these non-GAAP financial measures. Investors are encouraged to review the reconciliations of these non-GAAP financial measures to their most comparable GAAP financial measures included in this Quarterly Report, and not to rely on any single financial measure to evaluate our business.

Constant Currency

We disclose operating results from net sales through operating profit on a constant currency basis by adjusting to exclude the impact of changes due to the translation of foreign currencies of our international locations into U.S. dollars. Management believes this non-GAAP financial information facilitates period-to-period comparison in the analysis of trends in business performance, thereby providing valuable supplemental information regarding our results of operations, consistent with how we evaluate our financial results internally.

The impact of foreign currency translation is calculated by converting our current-period local currency financial results into U.S. dollars using the prior period's exchange rates and comparing these adjusted amounts to our prior period reported results. The difference between actual growth rates and constant currency growth rates represents the impact of foreign currency translation. The foreign exchange impacts on the quarter-to-date results were primarily the result of depreciation in the Brazilian real and Chinese yuan, while the impacts on the year-to-date results were primarily the result of appreciation in the euro, Chinese yuan and British pound, partially offset by depreciation in the Brazilian real.

Organic Net Sales Growth

Organic sales growth is defined as net sales excluding the impact of foreign currency translation, changes due to pass-through pricing of certain metals, and acquisitions and/ or divestitures, as applicable. Management believes this non-GAAP financial measure provides investors with a more complete understanding of the underlying net sales trends by providing comparable sales over differing periods on a consistent basis.

The following table reconciles GAAP net sales growth to organic net sales growth for the three and nine months ended September 30, 2018:

Three Months Ended September 30, 2018				
Reported Net Sales Growth	Impact of Currency	Change in Pass-Through Metals Pricing	Acquisitions/ (Divestitures)	Organic Sales Growth
2%	2%	—%	—%	3%
Nine Months Ended September 30, 2018				
Reported Net Sales Growth	Impact of Currency	Change in Pass-Through Metals Pricing	Acquisitions/ (Divestitures)	Organic Sales Growth
7%	(3)%	—%	—%	4%

NOTE: totals may not sum due to rounding

For the three months ended September 30, 2018, pass-through metals pricing had a positive impact of \$0.6 million and acquisitions had a positive impact of \$2.3 million on net sales.

For the nine months ended September 30, 2018, pass-through metals pricing had a negative impact of \$2.0 million and acquisitions had a positive impact of \$3.5 million on net sales.

Net Sales

(\$ amounts in millions)	Three Months Ended September 30,		% Change			Nine Months Ended September 30,		% Change		
	2018	2017	Reported	Constant Currency	Organic	2018	2017	Reported	Constant Currency	Organic
	Net sales	\$ 488.5	\$ 480.6	2%	4%	3%	\$ 1,482.6	\$ 1,390.0	7%	4%

Net sales in the third quarter of 2018 increased by 2% (4% on a constant currency and 3% on an organic basis). Organic net sales increased across all of our businesses, driven largely by our Industrial business. Industrial Solutions contributed to the segment's organic sales growth primarily through favorable commodity pricing in the Americas and strong demand for core industrial and Fernox products in Europe, partially offset by lower demand in the automotive markets. Organic growth in our Electronics business, which was mostly driven by memory disk and semi-conductor products, was partially offset by lower core sales in Asia. We also saw moderate organic growth in our Assembly business, driven primarily by favorable pricing in bar and wire products in the Americas and Europe, which offset volume softness in Asia. Our Graphics business benefited modestly from strong sales in Latin America and Asia, which were partially offset by declines in the North America. Demand in our Offshore business benefited from improved business conditions in offshore drilling markets and higher fill activity in the period, particularly in the Americas.

On a year-to-date basis, net sales increased by 7% (4% on a constant currency and organic basis). Organic sales growth in our Industrial business benefited from strong growth of surface treatment chemistries in Europe, film products in the Americas and global growth in our Fernox products. Organic sales growth in our Assembly business contributed broadly across product lines, particularly solder paste and bar products in Asia and the Americas. Our Offshore businesses contributed gains primarily from the Americas. Growth in our Electronics business was driven primarily by higher semiconductor and core electronics sales volume in North America.

Gross Profit

(\$ amounts in millions)	Three Months Ended September 30,		% Change		Nine Months Ended September 30,		% Change	
	2018	2017	Reported	Constant Currency	2018	2017	Reported	Constant Currency
	Gross profit	\$ 209.6	\$ 208.2	1%	3%	\$ 635.4	\$ 601.6	6%
Gross margin	42.9%	43.3%	(40) bps	(40) bps	42.9%	43.3%	(40) bps	(30) bps

Gross profit in the third quarter of 2018 increased by 1% (3% at constant currency). Constant currency growth was driven primarily by higher revenues as discussed above. This growth was partially offset by unfavorable product mix in our Electronics business, which recorded a lower proportion of high-margin product sales, most notably in Korea.

On a year-to-date basis, gross profit increased by 6% (3% at constant currency). The primary driver of the increase in constant currency gross profit and gross margin was an increase in the year-to-date sales growth as discussed above. This growth was partially offset by margin decline resulting primarily from unfavorable product mix in our Electronics and Industrial businesses which recorded a lower proportion of high-margin product sales, the impact of certain raw material price inflation year-over-year and increases in logistics and warehousing costs resulting from our plant rationalization initiatives.

Selling, Technical, General and Administrative Expense (STG&A)

(\$ amounts in millions)	Three Months Ended September 30,		% Change		Nine Months Ended September 30,		% Change

STG&A as a % of net sales	28.5%	29.1%	(60) bps	(80) bps	28.6%	30.2%	(160) bps	(140) bps

STG&A in the third quarter of 2018 remained relatively unchanged (increased 1% at constant currency). On a constant currency basis, the cost increase was primarily due to higher integration costs, partially offset by lower restructuring.

On a year-to-date basis, STG&A increased by 1% (decreased 1% at constant currency). The decrease in constant currency STG&A expense was the result of lower costs associated with our restructuring actions, partially offset by increased integration costs, operating cost inflation and higher selling costs.

Research and Development Expense (R&D)

Operating margin	12.2%	11.8%	40 bps	60 bps	12.0%	10.6%	140 bps	130 bps

Operating profit in the third quarter of 2018 increased by 5% (9% at constant currency), representing an operating margin of 12.2%. The increase in constant currency operating profit and margin was driven primarily by the higher gross profit noted above.

On a year-to-date basis, operating profit increased by 20% (17% at constant currency) to an operating margin of 12.0%. The increase in constant currency operating profit and margin was driven primarily by higher gross profit and lower operating expenses, as noted above.

Total Other (Expense) Income

(amounts in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Other (expense) income

Other (expense) income, net	(0.1)	0.6	13.6	3.4
Total	\$ (82.7)	\$ (95.3)	\$ (219.4)	\$ (300.4)

Interest Expense, Net

For the three and nine months ended September 30, 2018, net interest expense decreased \$6.8 million and \$22.9 million, respectively. The decrease in net interest expense, both in the quarter and year-to-date, was primarily driven by the redemption of our 10.375% senior notes and the repricing of a portion of our term loans in 2017, which decreased the weighted average effective interest rate on our Senior Notes from approximately 7.8% at September 30, 2017 to 6.5% at September 30, 2018, and on our term loans from approximately 5.0% at September 30, 2017 to 4.7% at September 30, 2018.

Foreign Exchange (Loss) Gain

For the three months ended September 30, 2018 and 2017, foreign exchange loss totaled \$4.7 million and \$11.2 million, respectively. For the nine months ended September 30, 2018 and 2017, foreign exchange gain (loss) totaled \$0.4 million and \$(47.5) million, respectively. The change in foreign exchange losses and gains for both periods presented was primarily related to the remeasurement of British pound and Taiwan dollar denominated intercompany balances and euro-denominated debt to U.S. dollar.

Other (Expense) Income, Net

For the nine months ended September 30, 2018 and 2017, other income, net totaled \$13.6 million and \$3.4 million, respectively. The year-to-date change was primarily related to a gain on the sale of an equity investment of \$11.3 million. Prior year activity included a favorable legal settlement of \$10.6 million, which was largely offset by \$7.8 million of debt extinguishment costs.

Income Tax

(amounts in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Income tax				
Income tax benefit (expense)	\$ 18.8	\$ 1.6	\$ (21.1)	\$ (20.2)
Effective tax rate	81.4%	4.2%	(50.6)%	(13.2)%

For the three months ended September 30, 2018 and 2017, income tax benefit totaled \$18.8 million and \$1.6 million, respectively. The income tax benefit in 2018 is driven by anticipated costs associated with the recapitalization of our balance sheet arising from the Announced Arysta Sale. These costs impact our quarterly tax provision as it is based on full year expected earnings by jurisdiction and were not included in the expected earnings of previous quarters.

For the nine months ended September 30, 2018 and 2017, income tax expense totaled \$21.1 million and \$20.2 million, respectively. The change in the effective tax rate is primarily due to a reduction in losses and a corresponding change in recognition of valuation allowances on net operating losses that may not be recoverable in jurisdictions resulting in no tax impact.

(Loss) Income from Discontinued Operations, Net of Tax

Loss from discontinued operations, net of tax, for the three months ended September 30, 2018 totaled \$402 million, as compared to a net loss of \$29.4 million in the prior year. For the nine months ended September 30, 2018, loss from discontinued operations, net of tax, totaled \$293 million, compared to net income of \$23.1 million in the prior year. The increased loss in both periods was driven by an estimated impairment of \$376 million which primarily reflected the recognition of foreign currency translation adjustments recorded in "Accumulated Other Comprehensive Loss" within Stockholders' Equity.

Other Comprehensive (Loss) Income

Other comprehensive loss for the three months ended September 30, 2018 totaled \$92.0 million, as compared to income of \$129 million in the prior year. The change was driven primarily by foreign currency translation losses associated with the Brazilian real, Chinese yuan and euro partially offset by gains associated with the British pound.

For the nine months ended September 30, 2018, other comprehensive loss totaled \$402 million, compared to income of \$270 million in the prior year. The change was driven primarily by foreign currency translation losses associated with the Brazilian real, Chinese yuan, euro and Canadian dollar partially offset by gains associated with the British pound.

Segment Performance

Our operations are organized into two reportable segments: Performance Solutions and Agricultural Solutions. As discussed in Note 4, *Discontinued Operations*, to our unaudited interim Condensed Consolidated Financial Statements, included in this Quarterly Report, in the three months ended September 30, 2018, the Agricultural Solutions segment met the requirements to be classified as discontinued operations. As a result, the Agricultural Solutions' operations have been excluded from the segment discussion below. For additional information regarding our segments, see Part I, Item 2, *Management's Discussion and Analysis of Financial Condition and Results of Operations*, under "Overview," and Notes 4, *Discontinued Operations*, and 15, *Segment Information*, to our unaudited interim Condensed Consolidated Financial Statements, included in this Quarterly Report.

Adjusted EBITDA

We utilize Adjusted EBITDA as one of the measures to evaluate the performance. Adjusted EBITDA includes corporate costs, such as compensation expense and professional fees. See Note 15, *Segment Information*, to our unaudited interim Condensed Consolidated Financial Statements included in this Quarterly Report for more information and a reconciliation of Net loss attributable to common stockholders to Adjusted EBITDA.

	Three Months Ended September 30,		% Change		Nine Months Ended September 30,		% Change	
	2018	2017	Reported	Constant Currency	2018	2017	Reported	Constant Currency
<i>(\$ amounts in millions)</i>								
Adjusted EBITDA	108.3	107.8	1%	3%	321.8	297.7	8%	5%
Adjusted EBITDA as a % of net sales	22.2%	22.4%	(20) bps	(20) bps	21.7%	21.4%	30 bps	20 bps

Performance Solutions' Adjusted EBITDA in the third quarter of 2018 increased by 1% (3% at constant currency). The constant currency increase was driven primarily by gross profit growth in our Offshore and Graphics businesses combined with the containment of operating expenses, as noted above. This growth was partially offset by unfavorable product mix in Industrial Solutions.

On a year-to-date basis, Performance Solutions' Adjusted EBITDA increased 8% (5% at constant currency). The constant currency increase and margin expansion was driven primarily by gross profit growth in our Assembly, Offshore and Electronics businesses combined with the containment of operating expenses, as noted above.

Liquidity and Capital Resources

At September 30, 2018, our indebtedness totaled \$5.40 billion, of which \$1.31 billion consisted of term loans under our Amended and Restated Credit Agreement which will become due in 2020. As a result of our interest rate swaps, approximately 69% of our debt is fixed, with the remaining balance subject to fluctuations in the one-month LIBOR and EURIBOR. On July 20, 2018, we entered into the Arysta Sale Agreement to sell our Agricultural Solutions business for \$4.20 billion in cash, subject to adjustments, the proceeds of which are expected to be used primarily to reduce our existing debt, for which we may incur significant nonrecurring expenses. We may also repurchase shares of our common stock in conjunction with the Board's authorization of up to \$750 million in potential share repurchases, conditioned upon the closing of the Announced Arysta Sale. The expected interest payments on our Senior Notes and term loans total approximately \$275 million per year over the next two years, prior to any potential use of the expected proceeds from the Announced Arysta Sale and the impact of this sale on our capital structure.

Our primary sources of liquidity during the nine months ended September 30, 2018 were periodic borrowings under our Revolving Credit Facility and available cash generated from operations. Our primary uses of cash and cash equivalents were to fund operations, working capital, capital expenditures and debt service obligations. We believe that our cash and cash equivalents and cash generated from operations, supplemented by availability under our lines of credit, including our Revolving Credit Facility, will be sufficient to meet our working capital needs, interest payments, capital expenditures and other business requirements for at least the next twelve months. However, potential share repurchases or refinancings of our existing debt instruments, working capital cycles and/or future acquisitions may require additional funding, which may include proceeds from the Announced Arysta Sale as well as future debt and/or equity offerings. Our long-term liquidity may be influenced by our ability to borrow additional funds, renegotiate existing debt and raise equity under terms that are favorable to us.

During the nine months ended September 30, 2018, approximately 76% of our net sales was generated from non-U.S. operations. We expect to continue to generate significant revenue from non-U.S. operations and, as a result, have a substantial portion of our cash held predominately by our foreign subsidiaries. We expect to manage our worldwide cash requirements based on available funds among the many subsidiaries through which we conduct business and the cost effectiveness with which those funds can be accessed. We may transfer cash from certain international subsidiaries to the United States and other international subsidiaries when we believe it is cost effective to do so.

We continually review our domestic and foreign cash profile, expected future cash generation and investment opportunities, which support our current designation of a portion of these funds as being indefinitely reinvested and reassess whether there is a demonstrated need to repatriate funds held internationally. If, as a result of our review, it is determined that all or a portion of the funds require repatriation, we may be required to accrue additional foreign taxes. Of our \$252 million of cash and cash equivalents at September 30, 2018, \$247 million were held by our foreign subsidiaries.

The following is a summary of our cash flows used in operating, investing, and financing activities of continuing operations during the periods indicated:

<i>(amounts in millions)</i>	Nine Months Ended September 30,	
	2018	2017
Cash used in operating activities	\$ (26.4)	\$ (65.0)
Cash used in investing activities	\$ (18.0)	\$ (14.5)
Cash used in financing activities	\$ (0.8)	\$ (9.1)

Operating Activities

During the nine months ended September 30, 2018, cash used in operating activities totaled \$26.4 million, compared to \$65.0 million used during the nine months ended September 30, 2017. This \$38.6 million decreased use of cash in operating activities

was driven primarily by higher cash operating profits (net loss adjusted for non-cash items), including the benefit of \$11.2 million of lower interest payments, offset in part by higher payments related to our facility integration initiatives and environmental matters.

Investing Activities

Cash flows used in investing activities totaled \$18.0 million during the nine months ended September 30, 2018, as compared to \$14.5 million used during the nine months ended September 30, 2017. The \$3.5 million increased use of cash in investing activities was driven by a year-over-year decrease in proceeds from the disposal of fixed assets and a \$4.9 million reduction in capital expenditures. During the current year, we received \$25.0 million of proceeds from the sale of an equity investment, which was offset in part by \$28.2 million of acquisition spending.

Financing Activities

Cash flows used in financing activities totaled \$0.8 million during the nine months ended September 30, 2018, as compared to \$9.1 million used during the nine months ended September 30, 2017. This \$8.3 million decreased use of cash was primarily driven by \$6.1 million of debt extinguishment costs in 2017.

Financial Borrowings

Credit Facilities

At September 30, 2018, we had \$5.40 billion of indebtedness, which primarily included:

- \$2.28 billion of Senior Notes; and
- \$3.11 billion of term debt arrangements outstanding under our First Lien Credit Facility.

Availability under our Revolving Credit Facility and various lines of credit and overdraft facilities totaled \$497 million at September 30, 2018 (net of \$16.8 million of stand-by letters of credit which reduce our borrowing capacity).

Covenants

Our Credit Facilities contain various affirmative and negative covenants, including limitations on additional indebtedness, dividends and other distributions, entry into new lines of business, use of loan proceeds, capital expenditures, restricted payments, restrictions on liens, transactions with affiliates, amendments to organizational documents, accounting changes, sale and leaseback transactions, and dispositions. Our Revolving Credit Facility requires compliance with certain financial covenants, including a first lien net leverage ratio of no greater than 6.25 to 1.0 of (x) consolidated indebtedness secured by a first lien minus unrestricted cash and cash equivalents of the borrowers and guarantors under the Amended and Restated Credit Agreement to (y) consolidated EBITDA for the four most recent fiscal quarters; provided that in the event that the Company or certain of its subsidiaries (i) incur incremental facilities in an aggregate amount in excess of \$250 million or (ii) make restricted payments in an aggregate amount in excess of \$50 million, the first lien net leverage ratio will be reduced to 4.0 to 1.0, in each case subject to a right to cure. In addition, our Amended and Restated Credit Agreement requires mandatory prepayments in the case of excess cash flow, calculated as set forth in the Amended and Restated Credit Agreement, of 75% with step-downs to 50%, 25% and 0% based on the applicable first lien net leverage ratio on the prepayment date.

Lastly, our Senior Notes are governed by indentures which also provide, among other things, for customary affirmative and negative covenants, events of default, and other customary provisions.

Off-Balance Sheet Transactions

We use customary off-balance sheet arrangements, such as letters of credit and operating leases.

For additional information regarding letters of credit, see Note 8, *Debt*, to our unaudited interim Condensed Consolidated Financial Statements included in this Quarterly Report.

As a result of ASU No. 2016-02, "*Leases*," we will be required to record lease liabilities and right-of-use assets for all of our qualifying operating leases that are currently treated as off-balance sheet transactions beginning on January 1, 2019. For additional information, see Note 2, *Recent Accounting Pronouncements*, to our unaudited interim Condensed Consolidated Financial Statements included in this Quarterly Report.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The quantitative and qualitative disclosures about market risk required by this item have not changed materially from those disclosed in our 2017 Annual Report. For a discussion of our exposure to market risk, refer to Part II, Item 7A, "Quantitative and Qualitative Disclosures about Market Risk," contained in our 2017 Annual Report.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

Our management is responsible for establishing and maintaining disclosure controls and procedures as defined in Rules 13a-15 (e) and 15d-15(e) under the Exchange Act. As required by Rule 13a-15(b) of the Exchange Act, management, including our CEO and CFO, has evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report. The term "disclosure controls and procedures," as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure. Based on that evaluation, our CEO and CFO have concluded that the Company's disclosure controls and procedures were not effective due to the previously-reported material weakness in our internal control over financial reporting relating to the accounting for income taxes, as described more fully in Part II, Item 9A, Controls and Procedures, of our 2017 Annual Report.

The material weakness in our internal control relating to the accounting for income taxes continued to exist as of the end of the period covered by this Quarterly Report and our management continues to be actively engaged in implementing the remediation initiatives described in our 2017 Annual Report. Our ongoing remediation efforts to design and implement integrated processes, enhancing our internal controls over the accounting for income taxes, include the implementation of the following previously stated initiatives:

- improving the overall tax provision process by redesigning and updating our policies and procedures;
- enhancing our income tax controls to include specific activities to assess the accounting for significant complex transactions and other tax related judgments;
- deploying training initiatives to incorporate updated policies, processes and controls into standard procedures; and
- aligning staff to reflect the structure and experience levels necessary to execute the enhanced control environment.

While we believe that significant progress continues to be made, additional time is necessary to fully implement and demonstrate the effectiveness of these remediation initiatives and until remediated, the material weakness described above could result in material misstatements of our annual or interim consolidated financial statements that would not be prevented or detected. We are committed to operating effective controls, and management continues to regularly assess the progress and sufficiency of the ongoing initiatives and make adjustments as and when necessary. Our remediation efforts are also subject to ongoing Audit Committee oversight. Our goal continues to be to remediate this material weakness concurrently with the filing of our annual report on Form 10-K for the year ended December 31, 2018.

Notwithstanding the aforementioned material weakness, our management believes that the unaudited interim Condensed Consolidated Financial Statements included in this Quarterly Report fairly represent, in all material respects, our results of operations, financial position and cash flows as of and for the periods presented, each in accordance with GAAP. Based in part on our continuing efforts, our CEO and CFO have included their certifications as exhibits to this Quarterly Report.

(b) Changes to Internal Control Over Financial Reporting

As required by Rule 13a-15(d) under the Exchange Act, our management, including our CEO and CFO, has evaluated the Company's internal control over financial reporting to determine whether any changes occurred during the quarter covered by this Quarterly Report have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

There have been no significant changes in our internal control over financial reporting that occurred during the quarter covered by this Quarterly Report that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In the ordinary course of business, we are involved in various legal disputes, investigations and claims and other legal proceedings, including, but not limited to, product liability claims, contractual disputes, premises claims, and employment, environmental, and health and safety matters. Where appropriate, we may establish loss contingencies for such proceedings based on an assessment of whether the risk of loss is remote, reasonably possible or probable. We also maintain insurance to mitigate certain of such risks. Although we cannot predict with certainty the ultimate resolution of our various legal proceedings, investigations and/or claims asserted against us, we believe that the resolution of these matters will not, individually or in the aggregate, have a material adverse effect on our business, financial condition or results of operations. Due to their inherent uncertainty, however, there can be no assurance as to the ultimate outcome of current or future litigation, proceedings, investigations or claims and it is possible that a resolution of one or more such proceedings could result in fines and penalties that could adversely affect our business, financial condition or results of operations.

In addition, we are involved in various claims relating to environmental matters at a number of current and former plant sites and waste management sites. We engage or participate in remedial and other environmental compliance activities at certain of these sites. At other sites, we have been named as a potential responsible party pursuant to the federal Superfund Act and/or state Superfund laws comparable to the federal law for site remediation. Based on currently available information, we do not anticipate any material losses in excess of the liabilities recorded. However, it is possible that, as additional information becomes available, the impact of an adverse determination could have a different effect. For additional information regarding environmental matters and liabilities, see Note 12, *Contingencies, Environmental and Legal Matters*, to the unaudited interim Condensed Consolidated Financial Statements included in this Quarterly Report.

Item 1A. Risk Factors

Except as set forth below, there have been no material changes to the risk factors set forth in Part I, Item 1A of our 2017 Annual Report under the heading "Risk Factors."

We and UPL may be unable to obtain the regulatory approvals or satisfy the other closing conditions required to complete the Announced Arysta Sale, which could impact our financial condition, results of operations, prospects and/or stock price.

The completion of the Announced Arysta Sale is subject to closing conditions, including approvals from antitrust authorities and certain other governmental authorities. We and UPL are pursuing all required consents, clearances and authorizations in accordance with the Arysta Sale Agreement. However, no assurance can be given that the required consents, clearances and authorizations will be obtained and, even if all such consents, clearances and authorizations are obtained, no assurance can be given as to the terms, conditions and timing of the consents, clearances and authorizations. These consents, clearances and authorizations may also impose conditions, which may delay or alter the parties' ability to complete the Announced Arysta Sale.

Further, even if all such consents, clearances and authorizations are obtained and such conditions are satisfied, no assurance can be given that the other conditions required to complete the Announced Arysta Sale will be satisfied, by us or UPL. The Arysta Sale Agreement may also be terminated by us and UPL in certain specified circumstances, including if the closing of the Announced Arysta Sale does not occur on or prior to December 31, 2019, subject to certain extension rights. If the Arysta Sale Agreement is terminated, we may not be able to negotiate another transaction on terms comparable to, or better than, the terms of the Arysta Sale Agreement.

The failure of the Announced Arysta Sale to close on a timely basis, or at all, could have a material adverse effect on our financial condition and/or stock price.

The announcement and pendency of the closing of the Announced Arysta Sale to UPL could have an adverse effect on our business, results of operations, financial condition, prospects and/or stock price.

The announcement and pendency of the closing of the Announced Arysta Sale, which is expected to occur late in late 2018 or in early 2019, could disrupt our business and/or our stock price in the following ways, among others:

- our current or prospective customers may experience uncertainty associated with the Announced Arysta Sale and may delay or defer purchase decisions with regard to our products;
- our customers, distributors and lenders may also attempt to terminate and/or renegotiate their relationships with us, whether pursuant to the terms of their existing agreements with us or otherwise;
- uncertainties related to the Announced Arysta Sale may impair our ability to attract, retain and motivate key personnel;
- under the Arysta Sale Agreement, we are subject to certain restrictions on the conduct of our business prior to the closing of the Announced Arysta Sale, which restrictions could adversely affect our ability to realize certain of our business strategies or take advantage of certain business opportunities;
- the current trading price of our common stock may reflect a market assumption that the Announced Arysta Sale will be completed, and may be materially impacted if the closing is delayed or the transaction completed under different, less favorable terms, or if the Arysta Sale Agreement is terminated; and
- the attention of our management may be directed toward the closing of the Announced Arysta Sale and related matters, and their focus may be diverted from the day-to-day business operations of our Company, including from other opportunities that might otherwise be beneficial to us.

Upon closing of the Announced Arysta Sale, we intend to implement a reorganization, which could negatively impact our performance.

Upon the closing of the Announced Arysta Sale, we intend to change Platform’s portfolio management approach to a “one-company” structure. This reorganization is expected to remove our “corporate” holding company framework by combining our corporate functions with those of our Performance Solutions segment and creating a single operating unit. This reorganization could disrupt our operations and cause the loss of key personnel. We cannot guarantee that this new company structure will succeed or that we will be effective in executing the reorganization. Further, even if the reorganization is successful, we cannot guarantee that the new company structure will generate the cost savings and efficiencies that we anticipate. Failure to implement the reorganization or the new company structure successfully, on a timely basis, or at all, or failure to realize all, or any, of their intended benefits, may materially adversely affect our business, financial condition or results of operations.
